

# Refinement and Revision Resources

# After the 8 Steps of MAST

**Refinement:**  
a process that includes  
other Christians from  
the language community

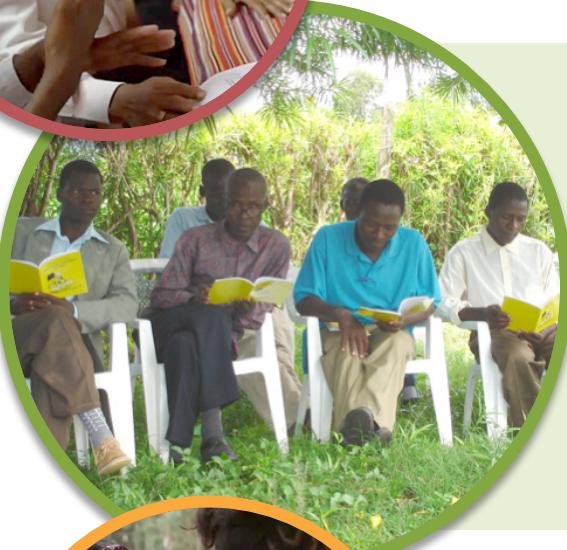

## Why include others?

Generate  
Scripture  
interest

Insight: how  
community  
understands  
translation

Build  
relationships  
and  
ownership

# How to Include Others

- Bible study/small group activity
- Sunday school class
- One-on-one in homes

# Refinement Resources

- Translation Topics
- Translation Manual
- Reviewer's Guide
- Greek Words for Translators and Bible Commentary

# Bibleineverylanguage.org

The screenshot shows the homepage of the [Bible In Every Language](https://www.bibleineverylanguage.org) website. The header features the Wycliffe Associates logo, navigation links for Processes, Resources, Translations, Tools, Support, and a language dropdown set to English. The main title "Bible In Every Language" is prominently displayed in large white letters. Below the title is a paragraph from Matthew 28:19-20, followed by a "Learn More" button. The page then transitions into a white section titled "Freely Available Content" with four categories: "Processes" (red gear icon), "Resources" (orange gear icon), "Translations" (green gear icon), and "Tools" (black gear icon). Each category includes a brief description and a "See All" link.

In Matthew 28:19-20, God commanded the church to make disciples and teach them to observe all his commandments. Having God's Word in your heart language is the foundation for this to happen. We believe that just as this mandate to the church applies to every believer in every language, so does the responsibility of making sure God's Word is available. This website provides translation processes, resources and tools to help you make God's Word available in multiple forms (written, oral, visual, or tactile).
